

Often it can be confusing for dog owners to know where you can exercise your dog. This pamphlet is designed to help you identify where you can and cannot take your dog and where you must use a leash.

Certain areas have been designated as Dog Prohibited areas by Council and entry to these areas with your dog is strictly forbidden.

There are many places within Tasman District to exercise your dog, both on and off the leash. There are designated areas specifically for dogs to be able to run free and socialise with other dogs. In all other areas, unless designated as "Dog Prohibited", dogs must be under "effective control".

**Effective Control** means that the dog is not a danger to or causing a nuisance to; persons, stock, poultry, domestic animals or protected wildlife and that the person in charge of the dog is able to obtain an immediate and desired response from the dog by use of a leash, voice commands, hand signals, whistles or other effective means.

## RESPONSIBLE DOG OWNERSHIP

**Owners are liable for any damage done by or caused by their dog**

**Dog leashes** must be carried by owners at all times when they are with their dogs in a public place.

**Dog faeces** must be removed immediately and hygienically disposed of. Doggie Doo bags are available free of charge from all Council Service Centres and dispensers throughout the region.

**Be respectful of others** do not allow your dog to intrude on another person's personal space. Be mindful that most people do not appreciate dogs rushing up to or jumping up on to them and small children especially are intimidated by excited uncontrolled dogs.

**Know your dog**, if on any occasion your dog is likely to injure, endanger, or cause distress to any stock, poultry, domestic animal or protected wildlife (Wildlife Act 1953) either avoid the area or ensure your dog is under leash control.

**Be aware of your surroundings** and your dogs actions, dogs in hunting mode are likely to be a threat to native Lizards and ground nesting birds if in doubt either avoid the area or ensure your dog is under leash control.

**Be a "Wet Sand Walker"** walking your dog below the high tide mark greatly reduces the chance of disturbing nesting and roosting shorebirds.
