Dear Phil

Motueka Aerodrome OLS and District Plan Rules - Your Correspondence of 10 August 2022

1. I am in receipt of your letter to me of 10 August 2022 in relation to the above matter.
2. As you are aware, I act for Ruru Building Ltd in relation to its consent applications RM210785 RM210786. While your letter expresses a view as to the reasonableness of part of the Request for Further Information for those applications, it in no way signals that it is a formal response to the provision of further information by my client under my cover letter of 15 March 2022.
3. I therefore still await the formal response from the Council to the provision of that information and my cover letter. I note that the repeated invitations to the s42A processing officer to meet and discuss the further information remain unanswered.
4. My client is also further reviewing the documentation you sent regarding the purported exercise of Clause 20A of the First Schedule Resource Management Act 1991.
5. In the interim it reserves its position regarding the effect of the purported exercise of Clause 20A and the reasonableness of the further information request.

Yours Faithfully

Hans van der Wal
